

PROJECT FOR THE CREATION OF A MUSIC SCHOOL AND A RECORDING STUDIO

Partnership and Twinning Proposal

1. INTRODUCTION

Music is a powerful tool for education, social inclusion, and personal development. Aware of the challenges faced by many children and young people in our communities—particularly idleness, lack of supervision, and limited access to cultural spaces—we are carrying a strong initiative: the creation of a music school combined with a recording studio named YACINE MUSIQUE.

This project aims to provide a safe, educational, and professional environment where children and young people can develop their talents, express themselves, and build a better future.

2. CONTEXT AND JUSTIFICATION

In our neighborhoods, we regularly observe young people spending their time in the streets with no structured activities or guidance. This situation motivated us deeply and strengthened our determination to act.
